

NVR-D04

Video Ready Storage Appliance

Introducing the Mini Tower 4 bay NVR Video Surveillance Ready Appliance.

This appliance is designed and manufactured specifically to support leading Enterprise IP Video Management System applications. The NVR Ready systems are purpose built for small to medium video surveillance projects with affordability in mind. This system is customizable to meet the most challenging requirements without breaking IT or security department budgets. Our engineers can help with projects from design to deployment and implementation. The NVR is a plug and play, simple video surveillance appliance for small to mid-size video needs.
